- CSS
- SQL
- MongoDB(Basics)

OTHERS

- Team Management
- Exploring new technologies

EDUCATION

B. Tech, CSE

Avanthi Institute of Engineering & Technology

2020-24 | Narsipatnam

CGPA: 8.0

Intermediate, MPC

A.P. Model School & Junior College

2018-20 | Marupaka

CGPA: 9.32

SSC

A.P. Model School & Junior College

2017-18 | Marupaka

CGPA: 9.50

LANGUAGES KNOWN

- English • Telugu

PROJECTS

REAL TIME POLLING APPLICATION -OPINION POLL APP

REACT JS , Sockets.io | Node JS | Firebase

Problem: In polling applications, students may tell each other their responses, resulting in the same answers being repeated. This makes it difficult to determine what each individual really thinks.

- Heroku and Render are both utilized to process backend requests, connect to the database, and send the required data back to the frontend.
- Firebase is used for real-time data storage, user authentication, and notifications.
